

# A spot of fishing on the Ternoise... why not ?

Thanks to the reciprocal agreement between the 3 fishing associations on the Ternoise, you have the possibility of fishing freely over 37 km of banks. This area is renowned for its first class fishing and has a large number of salmonids from natural reproduction, as well as great migrators (Atlantic salmon and sea trout). You will be able to develop various techniques at your leisure, such as fly fishing, lure fishing, fishing with natural bait... For a day, weekend or full week, there's fishing here to fulfil all your desires!

## Fishing licences to suit you! Fish all year round:

## Learn to fish

Want to try your hand at fishing? Whether alone, with friends or family, young or old, discover the pleasure of this nature-orientated leisure pursuit! The Pas-de-Calais Federation for Fishing and the Protection of the Aquatic Environment offers a series of free initiation sessions for everyone, with equipment loan, throughout the year.

## I fish, so I respect my Environment

- I ensure that the parking of my vehicle does not cause an obstruction,
- I take my waste away with me,
- I take care not to cause any damage and to close gates behind me,
- I do not interfere with vegetation along the banks of the streams.

## Equipping yourself

A spontaneous fishing trip? Note that there are two shops in the Ternoise area which specialise in the sale or the rental of fishing equipment and licences: "Au Canari" in Hesdin and "La Boutique du Ternois" in Saint-Pol-sur-Ternoise. Contact details on the back.

## What you need to know to fish on the Ternoise

To fish on the reciprocal routes of the Ternoise, it is necessary to have a Federal fishing licence affiliated to one of the 3 AAPPMA's operating within the local area, or from a reciprocal AAPPMA of the department or to have an inter-federal licence. Fishermen and women must accept and keep themselves informed of the current regulations. They will be liable to a fine and/or an exclusion of the AAPPMA in the event of non-compliance. Fishing on the Ternoise is permitted from the 2nd Saturday of March until the 3rd Sunday of September (inclusive). Find all the regulations on [www.peche62.fr](http://www.peche62.fr)

## Regulations for fishing associations on the Ternoise under the reciprocal agreement

- The use of gaffs is prohibited; the use of a dip net is recommended.
- Treble hooks are prohibited for float fishing or ledgering.
- Ground baiting is forbidden (pellets, special trout bait, etc.).
- Fishing by wading is allowed on the courses of Auchy-les-Hesdin and Saint-Pol-sur-Ternoise from 15 June.
- For salmonids, the number of catches is fixed at six fish including one brown trout per day and per person, except for the Hesdin AAPPMA whose catch is fixed at six trout all species combined.
- Legal catch size for brown trout: 30 cm.

Regulations are subject to change during the year. We invite you to regularly consult the orders issued by the Town Hall, as well as the regulations specific to each AAPPMA on: [www.peche62.fr](http://www.peche62.fr)
