

Your fishing license

Fishing license

In order to fish in the Pas-de-Calais departement, you will need a valid fishing license (carte de pêche). When fishing, you must have with you at all times: Both a fishing license issued by an AAPPMA of the Pas-de-Calais departement or one delivered by one of the neighbouring departements together with a subscription to a reciprocity agreement (URNE) and the official freshwater eel fishing form (carnet de pêche de l'anguille - CERFA form N°14358*01. This form must be sent to DREAL, 56 Rue Jules Barni, 80000 Amiens.).

It is illegal to fish without a fishing license. Any fishery officer is allowed to fine you if you cannot show him/her your fishing license.

Purchasing a fishing license

There are four different ways for you to obtain a fishing license:
■ Online: www.cartedepeche.fr
■ At a local agents' (find one near you on www.peche62.fr)
■ At the local AAPPMA (affiliated fishing association)
■ At the federation

Your license fees are put to good use

- **Obtaining fishing rights**
The fees collected by the Federation and the AAPPMA pay for the necessary fishing rights for anglers.
 - **Promoting and developing fishing**
These fees also allow the federation to organise fishing events and activities, from fishing classes for children (federation activities and fishing workshops) and the maintenance of fishing grounds to promoting fishing (signs, fishing guide) and the stocking of some fishing grounds.
 - **Protecting our fish and freshwater capital**
When you purchase a fishing license, you fund AAPPMA and Fishing federation actions in the public interest, such as fishing ground maintenance, ecological restoration and protection of fish species.
 - License fees also helps **maintain a fishing network in charge of communicating, teaching and monitoring as well as raising environmental awareness.**
- Part of the fees is used to finance official water agencies for the protection of the aquatic environment.**

Types of fishing licenses

There are 7 different fishing licenses to suit your every needs:

- Carte Interfédérale** - If you want to fish in the URNE, CHI, EGHO grounds, you will need the carte interfédérale, a reciprocal fishing license.
- Carte majeure** - an annual card for people over 18.
- Découverte femme** - an annual card especially for women (with only one fishing rod).
- Carte mineure** - an annual card for 12 to 18 year-olds.
- Carte découverte** - an annual card for children under 12 (with only one fishing rod).
- Carte journaliste** - our one-day fishing pass.
- Carte hebdomadaire** - our weekly fishing pass.
- Option Grands Migrateurs** - If you want to go sea trout fishing, you will need a specific fishing stamp called Grands Migrateurs (large migratory fish).

All prices can be found on our website:
www.peche62.fr or on the dedicated license site www.cartedepeche.fr

*license eligible for reciprocity if purchased from an association that applies reciprocity

Fishing for persons

with reduced mobility

You can find hereunder a list of some of the grounds where persons with reduced mobility can fish.

AAPPMA	Number	Location
Arques	9	2 in the Northern part of the Etang de Beauséjour, behind the campsite 7 at the etang de Malhove pond that can be accessed through the rue de Savoie street Parking spot with a walking path leading to the pontoons
Beaurainville	1	Beaurain-Chateau marsh, 200 m/ 220 yd. from the kayaking base
Béthune	1	Water station
Brimeux	3	2 in Brimeux, walk along the Canche river, direct access from the main road for persons with reduced mobility 1 in communal ponds of Brimeux
Calais	3	Guines canal in Preville
Douriez	1	Haut-Pont marsh and Fontaines marsh
Écourt	1	Haut Pont marsh, campsite road, car access
Fédération de Pêche Contes	2	"Marais de Contes marsh", Pond N°2
Fédération de Pêche Montreuil	1	Canche, large migratory fishes ground, Moulin du Bacon street - 150 meters downstream of the treatment plant's car park
Fédération de Pêche Aire sur la Lys	1	Federal pond "Ballastières" in Aire sur la Lys
Frévent	1	Residence of Bords de Canche, 26th street of Général de Gaulle
Hesdin	2	Guisy - Rivière street - near the picnic area Bouin-Plumoisin : near campsite, downstream of the bridge
Lillers	1	Brûle Pond - Brule street
Mazingarbe	1	Canal of Aire in La Bassée, 39 street Jean Delattre
Montreuil-sur-Mer	2	Under the road bridge, at the place called Place du Cormoran Alley of the Franc Marais - Place called "The Beach"
Oignies	1	At 10 meters from the fishing local, "Bras mort" site
Palluel	2	Marsh path, across the etang du Grand Clair pond
Raye-sur-Authie	1	250 m / 275 yd. from the bridge
Renty	1	100 m / 110 yd. downstream from the bridge, easy to park and to access, the river is right by the town road and wheelchair accessible"
Rollancourt	1	On the pond of category 2 rounds
Saint-Laurent-Blangy	1	Étang du Chevalier (Pond) - Through the entrance located Jean Jacques Rousseau street
Saint-Omer	1	Chrest Place
Saint Poi sur Ternoise	1	Anvin, Mazinghem street
Saint-Venant	4	On the passable part of the Digue de la L ys dam (150 m / 165yd)Upstream from the Saint Venant lock) Boulevard vert, rue d'Aire street on the Courant du Malmeule river At the Point d'Aire bridge, rue d'Aire street, on the Guarbecque river Rue Jean Moulin street, on the Busnes river

Regulations

Carp fishing at night

Carp fishing is allowed at night on specific areas defined by prefectural decree - find them on our website, www.peche62.fr. Only vegetable fishing paste can be used as bait. Under no circumstances can a carp be kept alive or transported at night. In order to fight against illegal trade in carp, the transport of alive carp over 60 cm (1 ft. 11 ¾ in.) is banned and punished with a €22,500 fine. Access the interactive map of sites authorized for night carp fishing on www.peche62.fr section species specific regulations.

New Night carp fishing is authorized on the federal ponds of Plouvain, Oisy-le-Verger, Aire-sur-la-Lys and Eperlecques according a prefectural calendar. Please check it on our website. The reservation is compulsory on the website resa.peche62.fr

Reciprocal fishing agreement Carte Interfédérale

The most economical formula

Many fishing associations and federations "pool" their fishing grounds through a reciprocal agreement to make it easier for anglers to obtain a license and to create a much larger fishing area. The interfederal fishing license "carte interfédérale", will give you access to all AAPPMA angling grounds **participating in the URNE, EGHO and CHI reciprocal networks.** The "Discovery under 12" fishing license (carte découverte), the "minor person" fishing license (Carte mineure) and the discovery fishing license for women (Carte Découverte Femme) benefit free of the reciprocal fishing agreement when the fishing license is taken in a reciprocal fishing association and if their department applies the recommended rate nationally. Please check up with the association where you will fish in order to verify the validity of your license. Important: the adherents of reciprocal associations are obliged to respect the rules of the other reciprocal associations where they will fish. To sustain the balance of reciprocity, we thank you not to go to the fish restocking of the other reciprocal association.

Selling your catch

You are not allowed to sell your catch.

Minimal catch size

Catch size is measured from the tip of the jaw to the extremity of the tail. Fish shorter than the minimal size must be released immediately (see the table concerning fishing hours and minimal catch size).

The federal courses

Catch and release fishing grounds

"Catch and release" is compulsory on all federal courses even the federal ponds. Fishing with live or dead baits is forbidden.

Two catch and release fly fishing grounds

The fishing federation created two grounds for catch and release fly-fishing : the first one is the Crequoise river in Offin, Loison-sur-Créquoise and Beaurainville and the other one is the Course river in Beussent. The ground in Beussent has a fishing limit of 3 anglers a day by a compulsory reservation on resa.peche62.fr

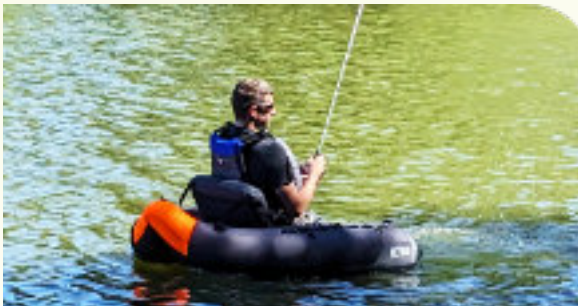

Seven federal fishing courses for all techniques

The Pas-de-Calais Fishing Federation offers seven federal catch and release courses for all fishing techniques (single hook). Go to the courses of Delettes, Esquerdes, Wizernes, Maresquel, Merck-St-Liévin Frévent and Bruay-la-Buissière. More information on www.peche62.fr

Float tubing

Thanks to the collaboration of the two Federations of North and Pas-de-Calais for the Fishing and the Protection of the Aquatic Environment to legalize float tubing on several waterways of the "Voies Navigables de France". Several courses are now opened to this practice: channelled Lys, beginning PK 0,50, end Pk of the North Department, Houlle River, complete section, channel of Aire, crossing of the Bassée, upstream Impasse de Aire-sur-la-Lys, Channel of Beuvry, complete section and the Port of Pleasure in Bethune, complete section. The federal pond Contes is also open to this practice on reservation. For more information about float tubing regulation in Pas-de-Calais, go on www.peche62.fr

You can also use a float tube in the federal ponds of Contes, Eperlecques and Ballastières respecting a federal planning. More information on fishing regulations in a float tube in Pas-de-Calais on www.peche62.fr

Where learning to fish in the Pas-de-Calais département ?

Les initiations et perfectionnements **Gratuit**

For several years now, the FDAAPPMA 62 has been offering free workshops to all anglers throughout the département. Participants will be guided by a professional instructor, and all the necessary fishing tackle will be provided free of charge by the fishing federation. In order to participate to this workshop, you only need apply.

Scan the QR CODE to subscribe

Ateliers Montage Mouche

Fly Tying Workshops
Do you want to learn how to tie your own fly? Volunteers will guide you step by step every Friday in February at the Maison de la Pêche et de la Nature in Arques. Equipment provided by the Fédération. Registration required.

Fishing season and hours / Minimum catch size

Species		Fishing period		Minimum catch size	Number of fish caught
		Category 1 rivers	Category 2 rivers		
	Pike	From March 14 to September 20, 2026 Mandatory release of the pike from March 14 to April 24, 2026	From January 1st to 25, 2026 From 25 April to December 31, 2026	Between 60 cm and 80cm (between 2ft. and 2ft. 7 in) in 2nd category areas and from 50cm (1ft. 5 3/4 in.) in 1st category rivers.	3 fishes including 2 pikes maximum per day
	Zander	From March 14 to September 20, 2026	From January 1st to 25, 2026 From 25 April to December 31, 2026 Mandatory release of the zander from April 25 to June 14, 2026	50 cm (1ft. 5 3/4 in.)	
	Grayling	From May 16 to September 20, 2026	From May 16 to December 31, 2026	30 cm (11,811 in.)	
	Brown trout	From March 14 to September 20, 2026	From May 16 to December 31, 2026	30 cm (11,811 in.)	6 salmonids per day including 2 brown Trouts maximum
	Rainbow trout	From March 14 to September 20, 2026	Open all year* Except for the canalised Aa, open from March 14 to September 20, 2026	25 cm (9 5/6 in.)	
	Sea trout	From April 25 to October 23, 2026		50 cm (1 ft 11 5/8 in.)	2 per day maximum
	Atlantic Salmon	Atlantic salmon Fishing prohibited			
	Eel	Moratorium currently under consultation at the time of writing the guide, please consult the decree in force to find out the applicable regulations.		12 cm (4 3/4 in.)	-
Spinycheek crayfish, red swamp crayfish, signal crayfish and all other species no mentioned before		From March 14 to September 20, 2026	All Year		
Crayfish (European crayfish, white-clawed crayfish, narrow-clawed crayfish and stone crayfish), silver eel (and other <12cm), allis shad, sea and river lamprey.					

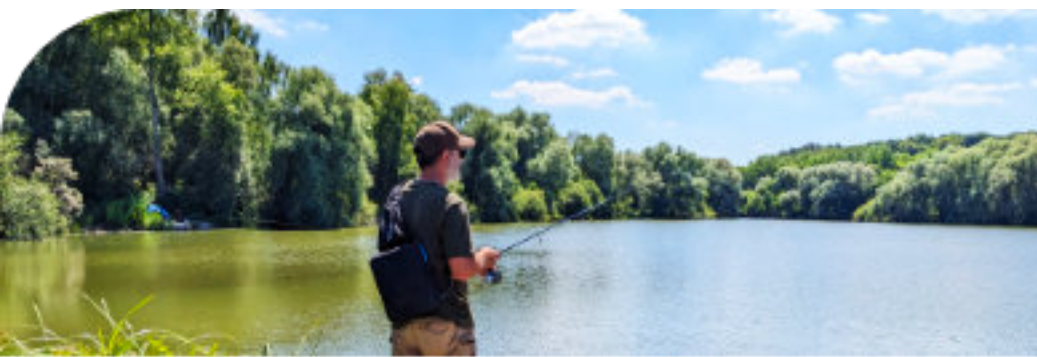

Legal fishing hours

Fishing starts half an hour before sunrise and stops half an hour after sunset. The only exception concerns sea trout: fishing for it is permitted 2 hours after sundown in areas registered for sea trout fishing (mentioned in the annual prefectural decree).

Fishing schools and clubs

The fishing schools were created to help beginners develop the skills they need to be able to fish on their own and responsibly, respecting nature and those who enjoy it. In Pas-de-Calais, you can be taught fishing in :

Events

Federal Carp Enduro 2026

For this 9th edition, the Federation is renewing its partnership with the Audomarois Carpists and the AAPPMA of Palluel. Exceptionally, the Palluel Marshes will host night carp fishing as part of this friendly competition organized from July 3 to 5, 2026. Registration is required. More information to come on www.peche62.fr

Junior Fishing Tour Angling

The Junior Fishing Tour (JFT) is a new meeting and confrontation space for young fisherman! Resulting from a partnership between the National Federation of Fishing in France (FNFP), the French Federation of Sport Fishing (FFPS) and the French Fishing Tackle Industry Group (GIFAP), Junior Fishing Tour offers 2 circuits ranging from departmental rounds to grand finals national. The Pas-de-Calais Federation for Fishing and the Protection of the Aquatic Environment will organize two coarse fishing rounds on Saturday, April 11, 2026, on the federal lake of Eperlecques. Participation in both rounds is mandatory to qualify for the regional championship. More information to come at www.peche62.fr and juniorfishingtour.fr

Fishing Fair **Join us!**

Sunday June 7, 2026: anglers will gladly teach you and your family how to fish! Thanks to the Pas-de-Calais Fishing Federation and local fishing aquatic environment conservation associations, everybody can learn how to fish in their local river and all about fish. The Federation will be present at a Fishing and Nature Village in Beaurainville. To know all the places entertainment, please consult our website: www.peche62.fr

Remember, fishing is exceptionally free every first Sunday in June only as part of a fishing animation proposed by an AAPPMA (Association Approved for Fishing and Protection of the Aquatic Environment) and relayed by the Federation.

Useful information

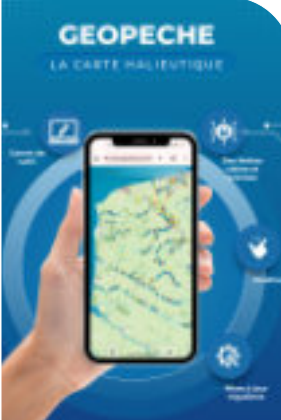

If you come across any contamination, call

OFB (river police) +33 3 21 23 42 75
The closest police station • Your local AAPPMA
The fishing federation: +33 3 91 92 02 03
Please react as fast as you can. If a machine answers your call, please leave a message and call the next number on the list until you reach someone who can come and assess the contamination.

Focus on...

Catch and release: As the past year, the rivers of Aa, Liane, Ternoise, Wimereux, Bras de Brosne, Laquette, Scarpe and Lawe are under a prefectural «catch and release compulsory» decree for the 2026 year. Brown trout must be released. The various pressures exerted on the environment in recent years, in particular the repeated pollution and successive droughts justify this temporary regulation. Please consult the annual fishing order to obtain the exhaustive list of sites concerned.

Interactive GéoPêche map: The «waters» open to fishing in Pas-de-Calais are now available on www.geopeche.com. This application is a free interactive map. You can consult it from your computer, your smartphone, your tablet. This application include all the rivers and ponds in the department as well as all the information necessary for recreational fishing.

resa.peche62.fr

The Federation has set up an online booking platform for its specific fishing routes: night carp fishing, fly fishing and float tube fishing. Now, to achieve your reservation for one or more nights in a row on a federal

fishing pond (Ballastières, Eperlecques, Plouvain and Contes), all you need to do is register for free via the website resa.peche62.fr. Accessible 24 hours a day, it allows you to manage your reservations and modify them at any time for a live update.

Invasive alien species

Invasive alien species

Catfish, sunfish, pseudorasbora and American crayfish are invasive alien species and should never be released. They must be transported dead and their introduction prohibited. It is therefore strictly forbidden to use them for fishing as live or dead bait.

The round goby : species likely to cause biological disorders

This species, native to Eastern Europe, is known in France since the beginning of the 2010s. The round goby has a strong dynamic and shows an invasive character. With a mainly carnivorous diet (invertebrates, fry, eggs,...), this species is characterized by a black spot on the first dorsal fin. It is not to be confused with the sculpin, native species of our department.

By annual prefectural decree: it is forbidden to release the round goby, to use them dead or alive as bait.

Fishing tourism

What about fishing on the Ternoise river?

4 fishing associations along the Ternoise river have signed a reciprocal agreement so that anglers can enjoy an uninterrupted 23 miles of category 1 fishing grounds on the banks of the river. They are renowned for their density in salmonids - which reproduce naturally - as well as large migratory fish such as sea trout. On the Ternoise riverbanks, you can enjoy different fishing techniques: fly-fishing, lure fishing, Czech nymphing... Come and fish for a day, or two, or more!

Find out more about the Pêche en Ternoise project on the pecherenriveroertvallees Facebook page

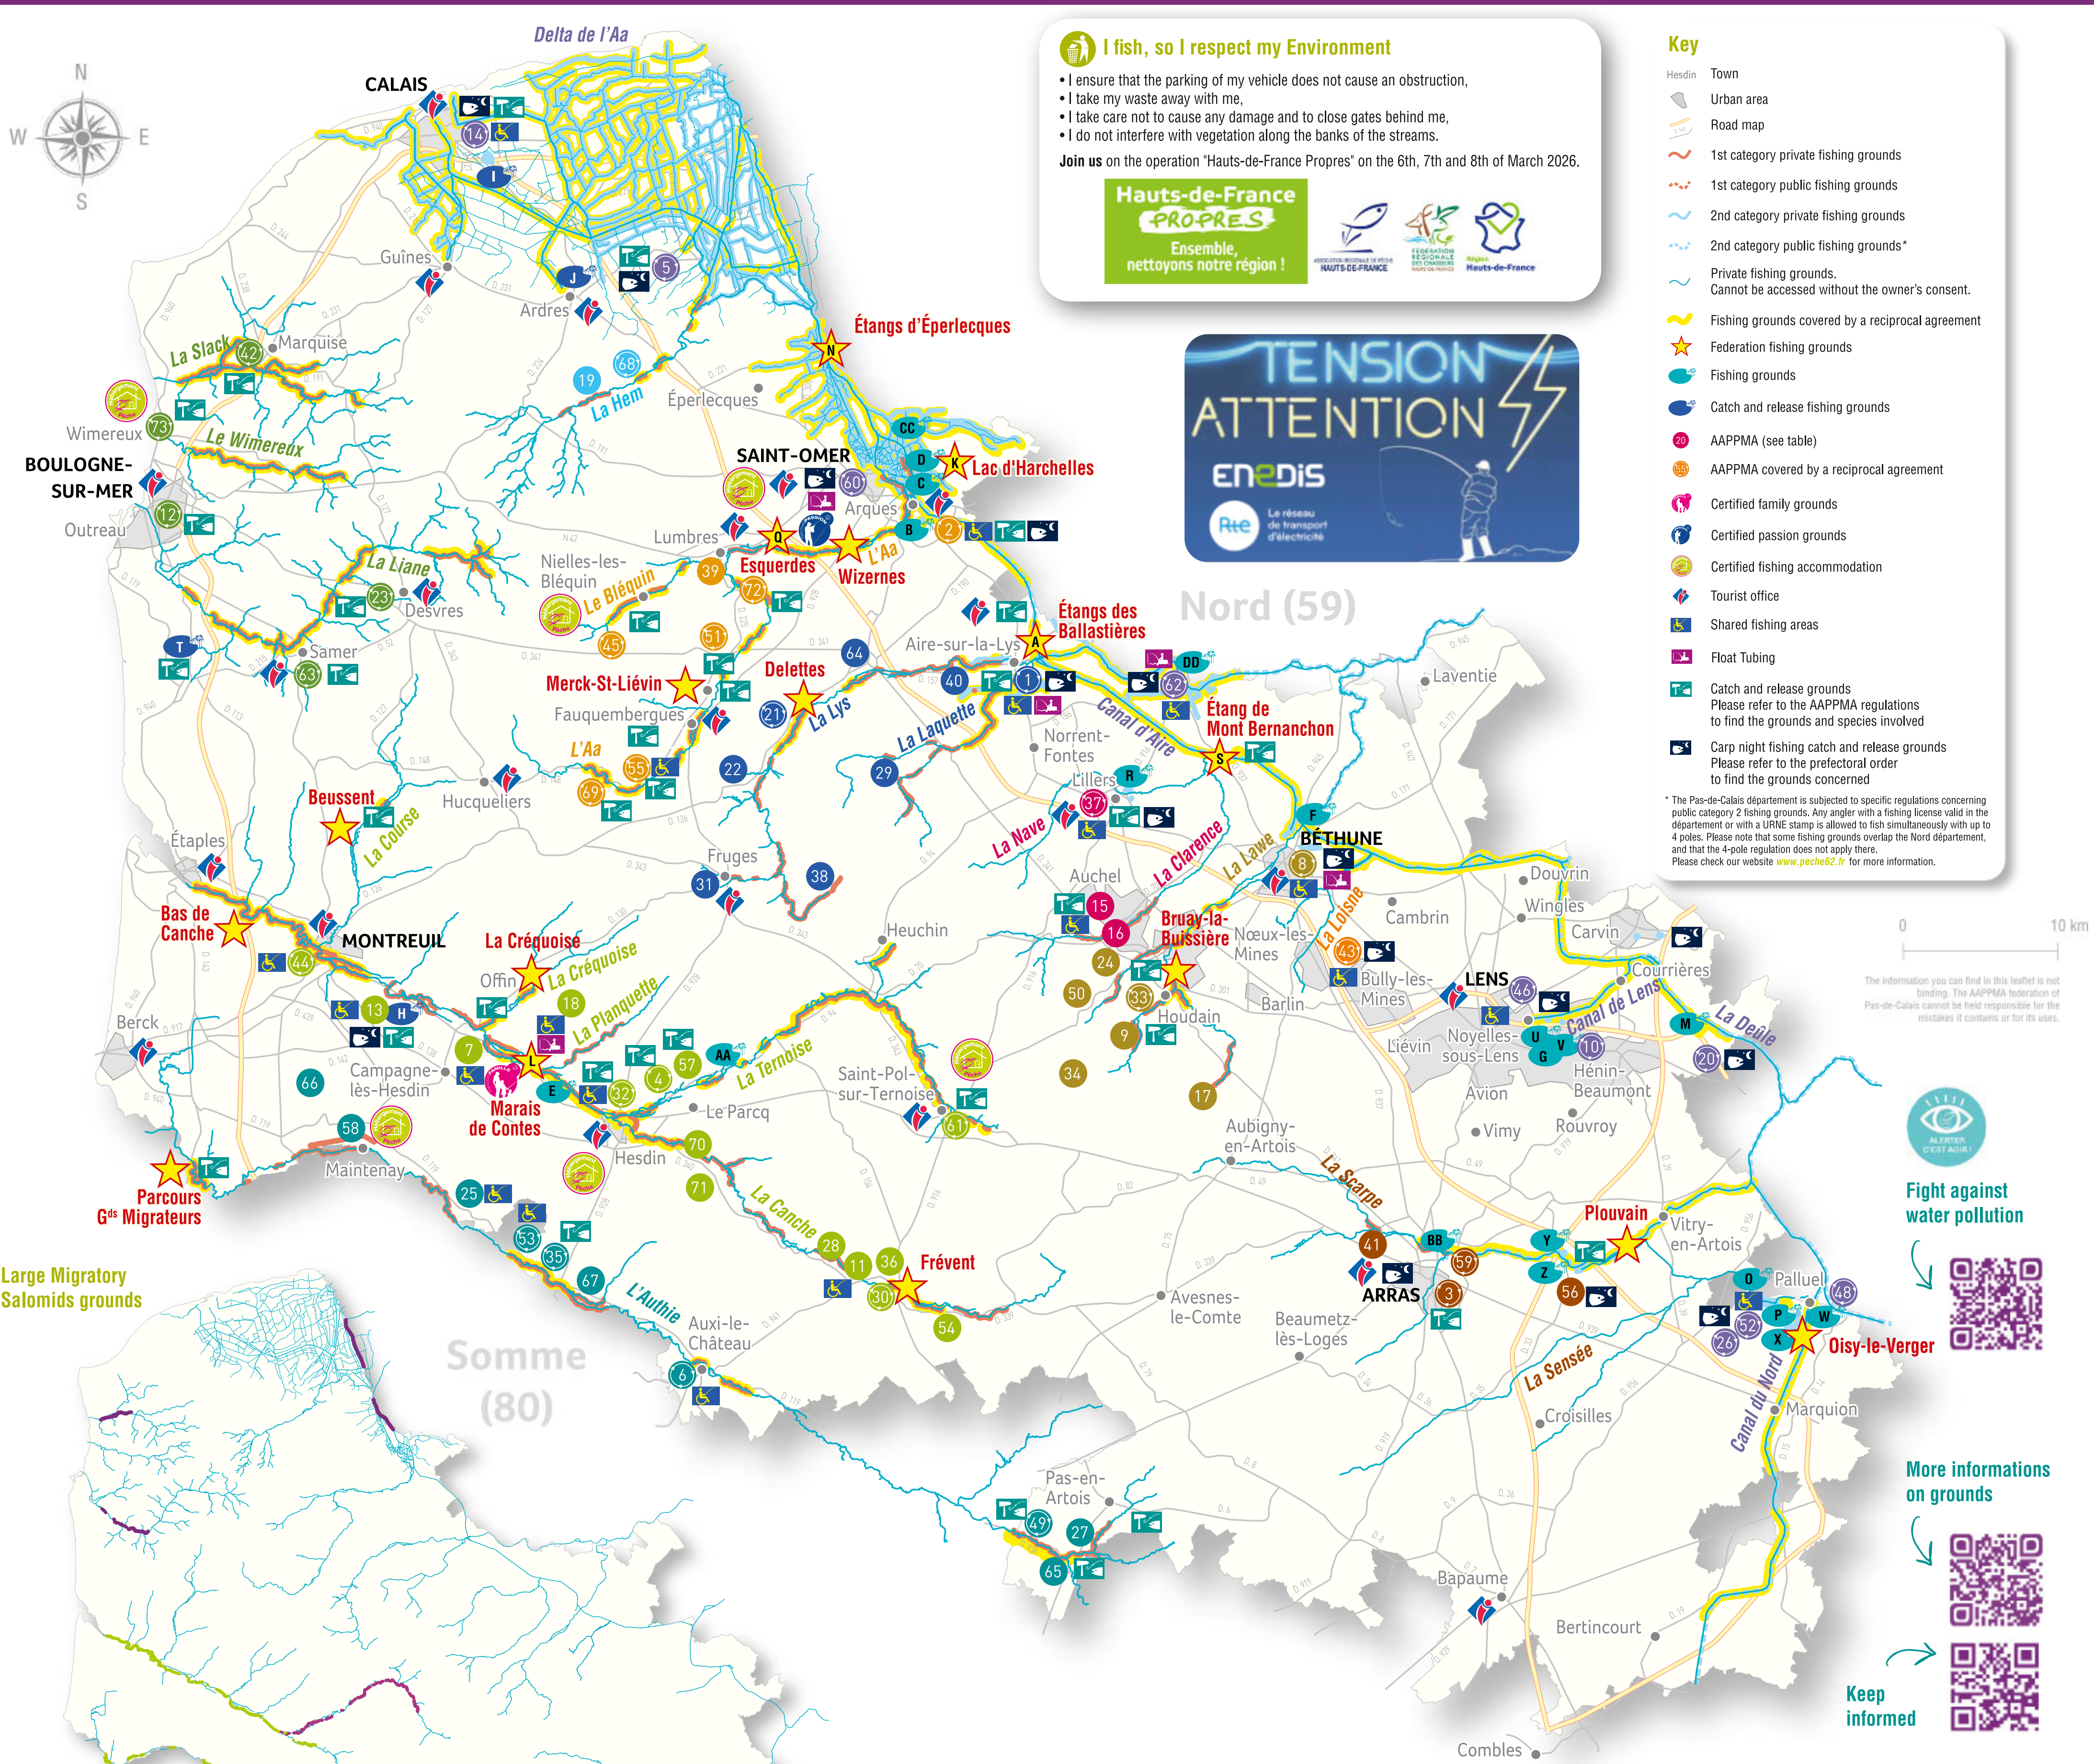

Fishing accommodation
The French fishing federation (FNFP) has established a label and its accompanying quality charter to help promote the development of fishing accommodation and services. The Fédération du Pas-de-Calais pour la Pêche et la Protection du Milieu Aquatique also applies this quality charter locally. Fishing accommodation must meet several criteria: it has to be close to fishing grounds, must be open during the fishing season, must welcome anglers in a personal way and be ready to advise them and provide relevant leaflets and documentation. It must also offer services such as a locker or room for fishing tackle, packed meals, and make fishing easier by delivering fishing licenses, informing anglers about current regulations and what the departmental Federation has to offer. Here is a list of fishing accommodation that have applied for this quality label. And now, thanks to the financial contribution of Europe and the Hauts-de-France Region, you can freely loan the fishing equipment. You can find below the list of certified accommodation. Please, find below the list of certified accommodation.

Ternoise	Downstream from the downstream dam to hermicourt in Hermicourt	NO	NO	YES
Liane	Downstream from the bridge of the D901 between Carly and Samer	NO	NO	YES
Slack	Downstream from the bridge of the A16 in Marquise	NO	NO	YES
Aa	Downstream from the bridge of the D928 in Saint Omer	NO	NO	YES

To declare your migratory fishes catches

If you have caught a migratory fish (sea trout), whether you released it or not, please declare your catch at <https://declarationpeche.fr/>

Possession of migratory stamp is strictly required if:

- You want to take a Sea Trout (only allowed on the Canche and Authie axis to the upstream limits which are indicated in the table below cons).
 - You want to fish during the twilight exemption (only allowed on the Canche and Authie axis to the upstream limits indicated in the table below cons).
 - You want to fish on these rivers until the closing date of the fishing Sea Trout.
- Beware, the practice of catch and release is mandatory on several courses.

Scan this QR code to find a "migration options" reseller.

Maison de la Pêche et de la Nature (fishing and nature centre) in Pas-de-Calais

How the fishing federation raises awareness and spreads information

If you need any extra information concerning the Pas-de-Calais FDAAPPMA and its activities, you can come and visit the Maison de la Pêche et de la Nature - located rue des Alpes in Arques - Monday to Friday from 9 a.m. to 12 a.m. and from 2 p.m. to 5 p.m. Premises closed to the public on Friday afternoon.
