

Your fishing license

Fishing license

In order to fish in the Pas-de-Calais departement, you will need a valid fishing license (carte de pêche). When fishing, you must have with you at all times: Both a fishing license issued by an AAPPMA of the Pas-de-Calais departement or one delivered by one of the neighbouring departements together with a subscription to a reciprocity agreement (URNE) and the official freshwater eel fishing form (carnet de pêche de l'anguille - CERFA form N°14358\*01).

It is illegal to fish without a fishing license. Any fishery officer is allowed to fine you if you cannot show him/her your fishing license.

Purchasing a fishing license

There are four different ways for you to obtain a fishing license:  
■ Online: [www.cartedepeche.fr](http://www.cartedepeche.fr)  
■ At a local agents' (find one near you on [www.peche62.fr](http://www.peche62.fr))  
■ At the local AAPPMA (affiliated fishing association)  
■ At the federation

Your license fees are put to good use

- **Obtaining fishing rights**  
The fees collected by the Federation and the AAPPMA pay for the necessary fishing rights for anglers.
  - **Promoting and developing fishing**  
These fees also allow the federation to organise fishing events and activities, from fishing classes for children (federation activities and fishing workshops) and the maintenance of fishing grounds to promoting fishing (signs, fishing guide) and the stocking of some fishing grounds.
  - **Protecting our fish and freshwater capital**  
When you purchase a fishing license, you fund AAPPMA and Fishing federation actions in the public interest, such as fishing ground maintenance, ecological restoration and protection of fish species.
  - License fees also helps **maintain a fishing network in charge of communicating, teaching and monitoring as well as raising environmental awareness.**
- Part of the fees is used to finance official water agencies for the protection of the aquatic environment.**

Types of fishing licenses

There are 7 different fishing licenses to suit your every needs:

- Carte Interfédérale** If you want to fish in the URNE, CHI, EGH0 grounds, you will need the carte interfédérale, a reciprocal fishing license.
- Carte majeure** an annual card for people over 18.
- Découverte femme** an annual card especially for women (with only one fishing rod).
- Carte mineure** an annual card for 12 to 18 year-olds.
- Carte découverte** an annual card for children under 12 (with only one fishing rod).
- Carte journalière** our one-day fishing pass.
- Carte hebdomadaire** our weekly fishing pass.
- Timbre Grands Migrateurs** If you want to go sea trout or Atlantic salmon fishing, you will need a specific fishing stamp called Grands Migrateurs (large migratory fish).

All prices can be found on our website:  
[www.peche62.fr](http://www.peche62.fr) or on the dedicated license site [www.cartedepeche.fr](http://www.cartedepeche.fr)

Regulations

Carp fishing at night

Carp fishing is allowed at night on specific grounds defined by prefectoral order - find them on our website, [www.peche62.fr](http://www.peche62.fr). Only vegetable fishing paste can be used as bait. Under no circumstances can a carp be kept alive or transported at night. In order to fight against illegal trade in carps, transporting live carps over 60 cm (1 ft. 11 ¼ in.) is forbidden and punishable by a €22,500 fine.  
Go to the interactive map of sites authorized for night carp fishing on [www.peche62.fr](http://www.peche62.fr) section *Specific regulations by species*.

**New** Night carp fishing is authorized on the federal ponds of Contes, Plouvain, Aire-sur-la-Lys and Eperlecques every 1st week-end of the month by reservation on + 333 91 92 02 03.

Reciprocal fishing agreement Carte Interfédérale

The most economical formula

Many fishing associations and federations "pool" their fishing grounds through a reciprocal agreement to make it easier for anglers to obtain a license and to create a much larger fishing area. The interfederal fishing license "carte interfédérale", will give you access to all AAPPMA angling grounds **participating in the URNE, EGH0 and CHI reciprocal networks**.  
The "Discovery under 12" fishing license (carte découverte), the "minor person" fishing license (Carte mineure) and the discovery fishing license for women (Carte Découverte Femme) benefit free of the reciprocal fishing agreement when the fishing license is taken in a reciprocal fishing association. **Please check up with the association where you will fish in order to verify the validity of your license.**  
**Important: the adherents of reciprocal associations are obliged to respect the rules of the other reciprocal associations where they will fish.**  
**To sustain the balance of reciprocity, we thank you not to go to the fish restocking of the other reciprocal association.**

Selling your catch

You are not allowed to sell your catch.

Minimal catch size

Catch size is measured from the tip of the jaw to the extremity of the tail. Fish shorter than the minimal size must be released immediately (see the table concerning fishing hours and minimal catch size).

Where learning to fish in the Pas-de-Calais département ?

Fishing for beginner and intermediate anglers **Free**

For several years now, the FDAAPPMA 62 has been offering free workshops to all anglers throughout the département. Participants will be guided by a professional instructor, and all the necessary fishing tackle will be provided free of charge by the fishing federation. In order to participate to this workshop, you only need apply. Call +33 3 91 92 02 03 or send an e-mail to [contact@peche62.fr](mailto:contact@peche62.fr)

Other dates are coming soon on [www.peche62.fr](http://www.peche62.fr)

Fly tying workshop

Create your own flies!  
The Federation provided the material. Price of the workshop: 5 euros. Meeting every Friday: of February from 6 p.m. to 8 p.m. Registration required on +33 3 91 92 02 03.

The federal courses

Catch and release fishing grounds

"Catch and release" is compulsory on all federal courses even the federal ponds. Fishing with live or dead baits is forbidden.

Three catch and release fly fishing grounds

The fishing federation created three grounds for catch and release fly-fishing: two grounds on the Crequoise river in Offin and in Loison-sur-Créquoise and one ground on the Course river in Beussent. The grounds in Offin and in Beussent have a fishing limit of 3 anglers a day. The ground in Loison-sur-Créquoise has a fishing limit of 4 anglers a day. Anglers must call the Federation one week ahead of time to register in order to be allowed to fish there. The phone number is +33 3 91 92 02 03.

**New** Four federal fishing courses for all techniques

The Pas-de-Calais Fishing Federation offers four federal catch and release courses for all fishing techniques (single hook). Go to the courses of Delettes, Esqueredes, Wizernes and Maresquel. More information on [www.peche62.fr](http://www.peche62.fr)

Float tubing

Thanks to the collaboration of the two Federations of North and Pas-de-Calais for the Fishing and the Protection of the Aquatic Environment to legalize float tubing on several waterways of the "Voies Navigables de France". Several courses are now opened to this practice: channelled Lys, beginning PK 0.50, and Pk of the North Department, Houlle River, complete section, channel of Aire, crossing of the Bassée, upstream

Impasse of Aire-sur-la-Lys, Channel of Beuvry, complete section and the Port of Pleasure in Bethune, complete section. The federal pond Contes is also open to this practice on reservation. For more information about float tubing regulation in Pas-de-Calais, go on [www.peche62.fr](http://www.peche62.fr)

Fishing for persons with reduced mobility

You can find hereunder a list of some of the grounds where persons with reduced mobility can fish.

AAPPMA	Number	Location
Arques	9	2 in the Northern part of the Etang de Beaussejour, behind the campsite 7 at the etang de Malhove pond that can be accessed through the rue de Savoie street Parking spot with a walking path leading to the pontoons
Beaurainville	1	Beaurain-Chateau marsh, 200 m/ 220 yd. from the kayaking base
Béthune	1	Water station 2 in Brimeux, walk along the Canche river, direct access from the main road for persons with reduced mobility
Brimeux	3	1 in communal ponds of Brimeux
Calais	3	Guines canal in Preville
Douriez	1	Haut-Pont marsh and Fontaines marsh
Écourt	1	Haut Pont marsh, campsite road, car access
Fédération de Pêche Contes	2	"Marais de Contes marsh", Pond N°2
Fédération de Pêche Montreuil	1	Canche, large migratory fishes ground, Moulin du Bacon street - 150 meters downstream of the treatment plant's car park
Fédération de Pêche Aire sur la Lys	1	Federal pond "Ballastières" in Aire sur la Lys
Frevant	1	Residence of Bords de Canche, 26th street of Général de Gaulle
Hesdin	2	Guisy - Rivière street - near the picnic area Bouin-Plumoisson : near campsite, downstream of the bridge
Lillers	1	Brûle Pond - Brule street
Mazingarbe	1	Canal of Aire in La Bassée, 39 street Jean Delattre
Montreuil-sur-Mer	2	Under the road bridge, at the place called Place du Cormoran Alley of the Franc Marais - Place called "The Beach"
Oignies	1	At 10 meters from the fishing local, "Bras mort" site
Oisy le Verger	1	Marais du Haut Pont marsh, "lot n°2", to the left by entering
Palluel	2	Marsh path, across the etang du Grand Clair pond
Raye-sur-Authie	1	250 m / 275 yd. from the bridge
Renty	1	100 m / 110 yd. downstream from the bridge, easy to park and to access, the river is right by the town road and wheelchair accessible
Rollancourt	1	On the pond of category 2 rounds
Saint-Laurent-Blangy	1	Étang du Chevalier (Pond) - Through the entrance located Jean Jacques Rousseau street
Saint-Omer	1	Chrest Place
Saint Poi sur Ternoise	1	Arvin, Mazinghem street
Saint-Venant	4	On the passable part of the Digue de la Lys dam (150 m / 165yd.Upstream from the Saint Venant lock) Boulevard vert, rue d'Aire street on the Courant du Malmeuier river At the Pont d'Aire bridge, rue d'Aire street, on the Guarbecque river Rue Jean Moulin street, on the Busnes river

Invasive alien species

Invasive alien species

Catfish, sunfish, pseudorasbora and American crayfish are invasive alien species and should never be released. They must be transported dead and their introduction prohibited. It is therefore strictly forbidden to use them for fishing as live or dead bait.

The round goby

This species, native to Eastern Europe, is known in France since the beginning of the 2010s. The round goby has a strong dynamic and shows an invasive character. With a mainly carnivorous diet (invertebrates, fry, eggs,...), this species is characterized by a black spot on the first dorsal fin. It is not to be confused with the sculpin, native species of our department.

By annual prefectural decree: it is forbidden to release the round goby, to use them dead or alive as bait.

Catfish

Sunfish

Pseudorasbora

American crayfish

Round goby

### Electricity • Caution

Keep away!

**Take these good tips without moderation**

**Do you want to fish in security?** Is your fishing rod made of carbone fiber or do you use a long fishing rod?

These tips concern you :

- avoid fishing near power lines,
- hold your fishing rod in a horizontal position when passing under a power line,
- be vigilant about information signs which indicates areas at risk,
- do not hesitate asking your Fishing Federation.

Fishing schools and clubs

The fishing schools were created to help beginners develop the skills they need to be able to fish on their own and responsibly, respecting nature and those who enjoy it. In Pas-de-Calais, you can be taught fishing in :

Events

Éperlecques Fishing Contest **New**

New site for the federal fishing contest. In 2023, the Federation will invite you to challenge the predators in the federal pond of Eperlecques,on Saturday December 02, 2023. More information on [www.peche62.fr](http://www.peche62.fr)

Enduro Carpes Contes

For the 6th consecutive year, the Pas-de-Calais Fishing Federation in partnership with the Audomarois carp anglers will renew the Enduro Carpe Contes Contest on the 25th, 26th and 27th of August 2023. Registration and more info on: [www.peche62.fr](http://www.peche62.fr)

Fishing Fair **Join us!**

**On Sunday June 4th 2023**, anglers will gladly teach you and your family how to fish ! Thanks to the Pas-de-Calais fishing federation and to the local fishing and aquatic environment conservation associations, everybody can learn how to fish in their local river or in ponds and discover more about the aquatic habitat and the species that live in it. To know all the animations, please consult our website [www.peche62.fr](http://www.peche62.fr)

Remember, fishing is exceptionally free every first Sunday in June only as part of a fishing animation proposed by an AAPPMA (Association Approved for Fishing and Protection of the Aquatic Environment) and relayed by the Federation.

Useful information

Insurance

Anglers with a Pas-de-Calais fishing license benefit from the FDAAPPMA62 insurance coverage for civil liability, disability and death while fishing or working as volunteers for their local AAPPMA or for the fishing federation.

If you come across any contamination, call

**OFB (river police)**  
**The closest police station • Your local AAPPMA**  
**The fishing federation: +33 3 91 92 02 03**

Please react as fast as you can. If a machine answers your call, please leave a message and call the next number on the list until you reach someone who can come and assess the contamination.

Focus on...

**New** New sites for compulsory catch and release

After the Aa river, and with the participation of associations for fishing and protection of the Aquatic Environment (concerned with protecting resources and participating to the renewal of stocks for a perennial leisure), several fishing courses will be in a prefectural « catch and release compulsory » for the year 2023. Thus on the Hem, the Ternoise, the Wimeroux, the Bras de Brosne, the Laquette, their tributaries and tributaries, brown trout must be released. The various pressures exerted on the environment in recent years, in particular the repeated pollution and successive droughts justify this regulation.

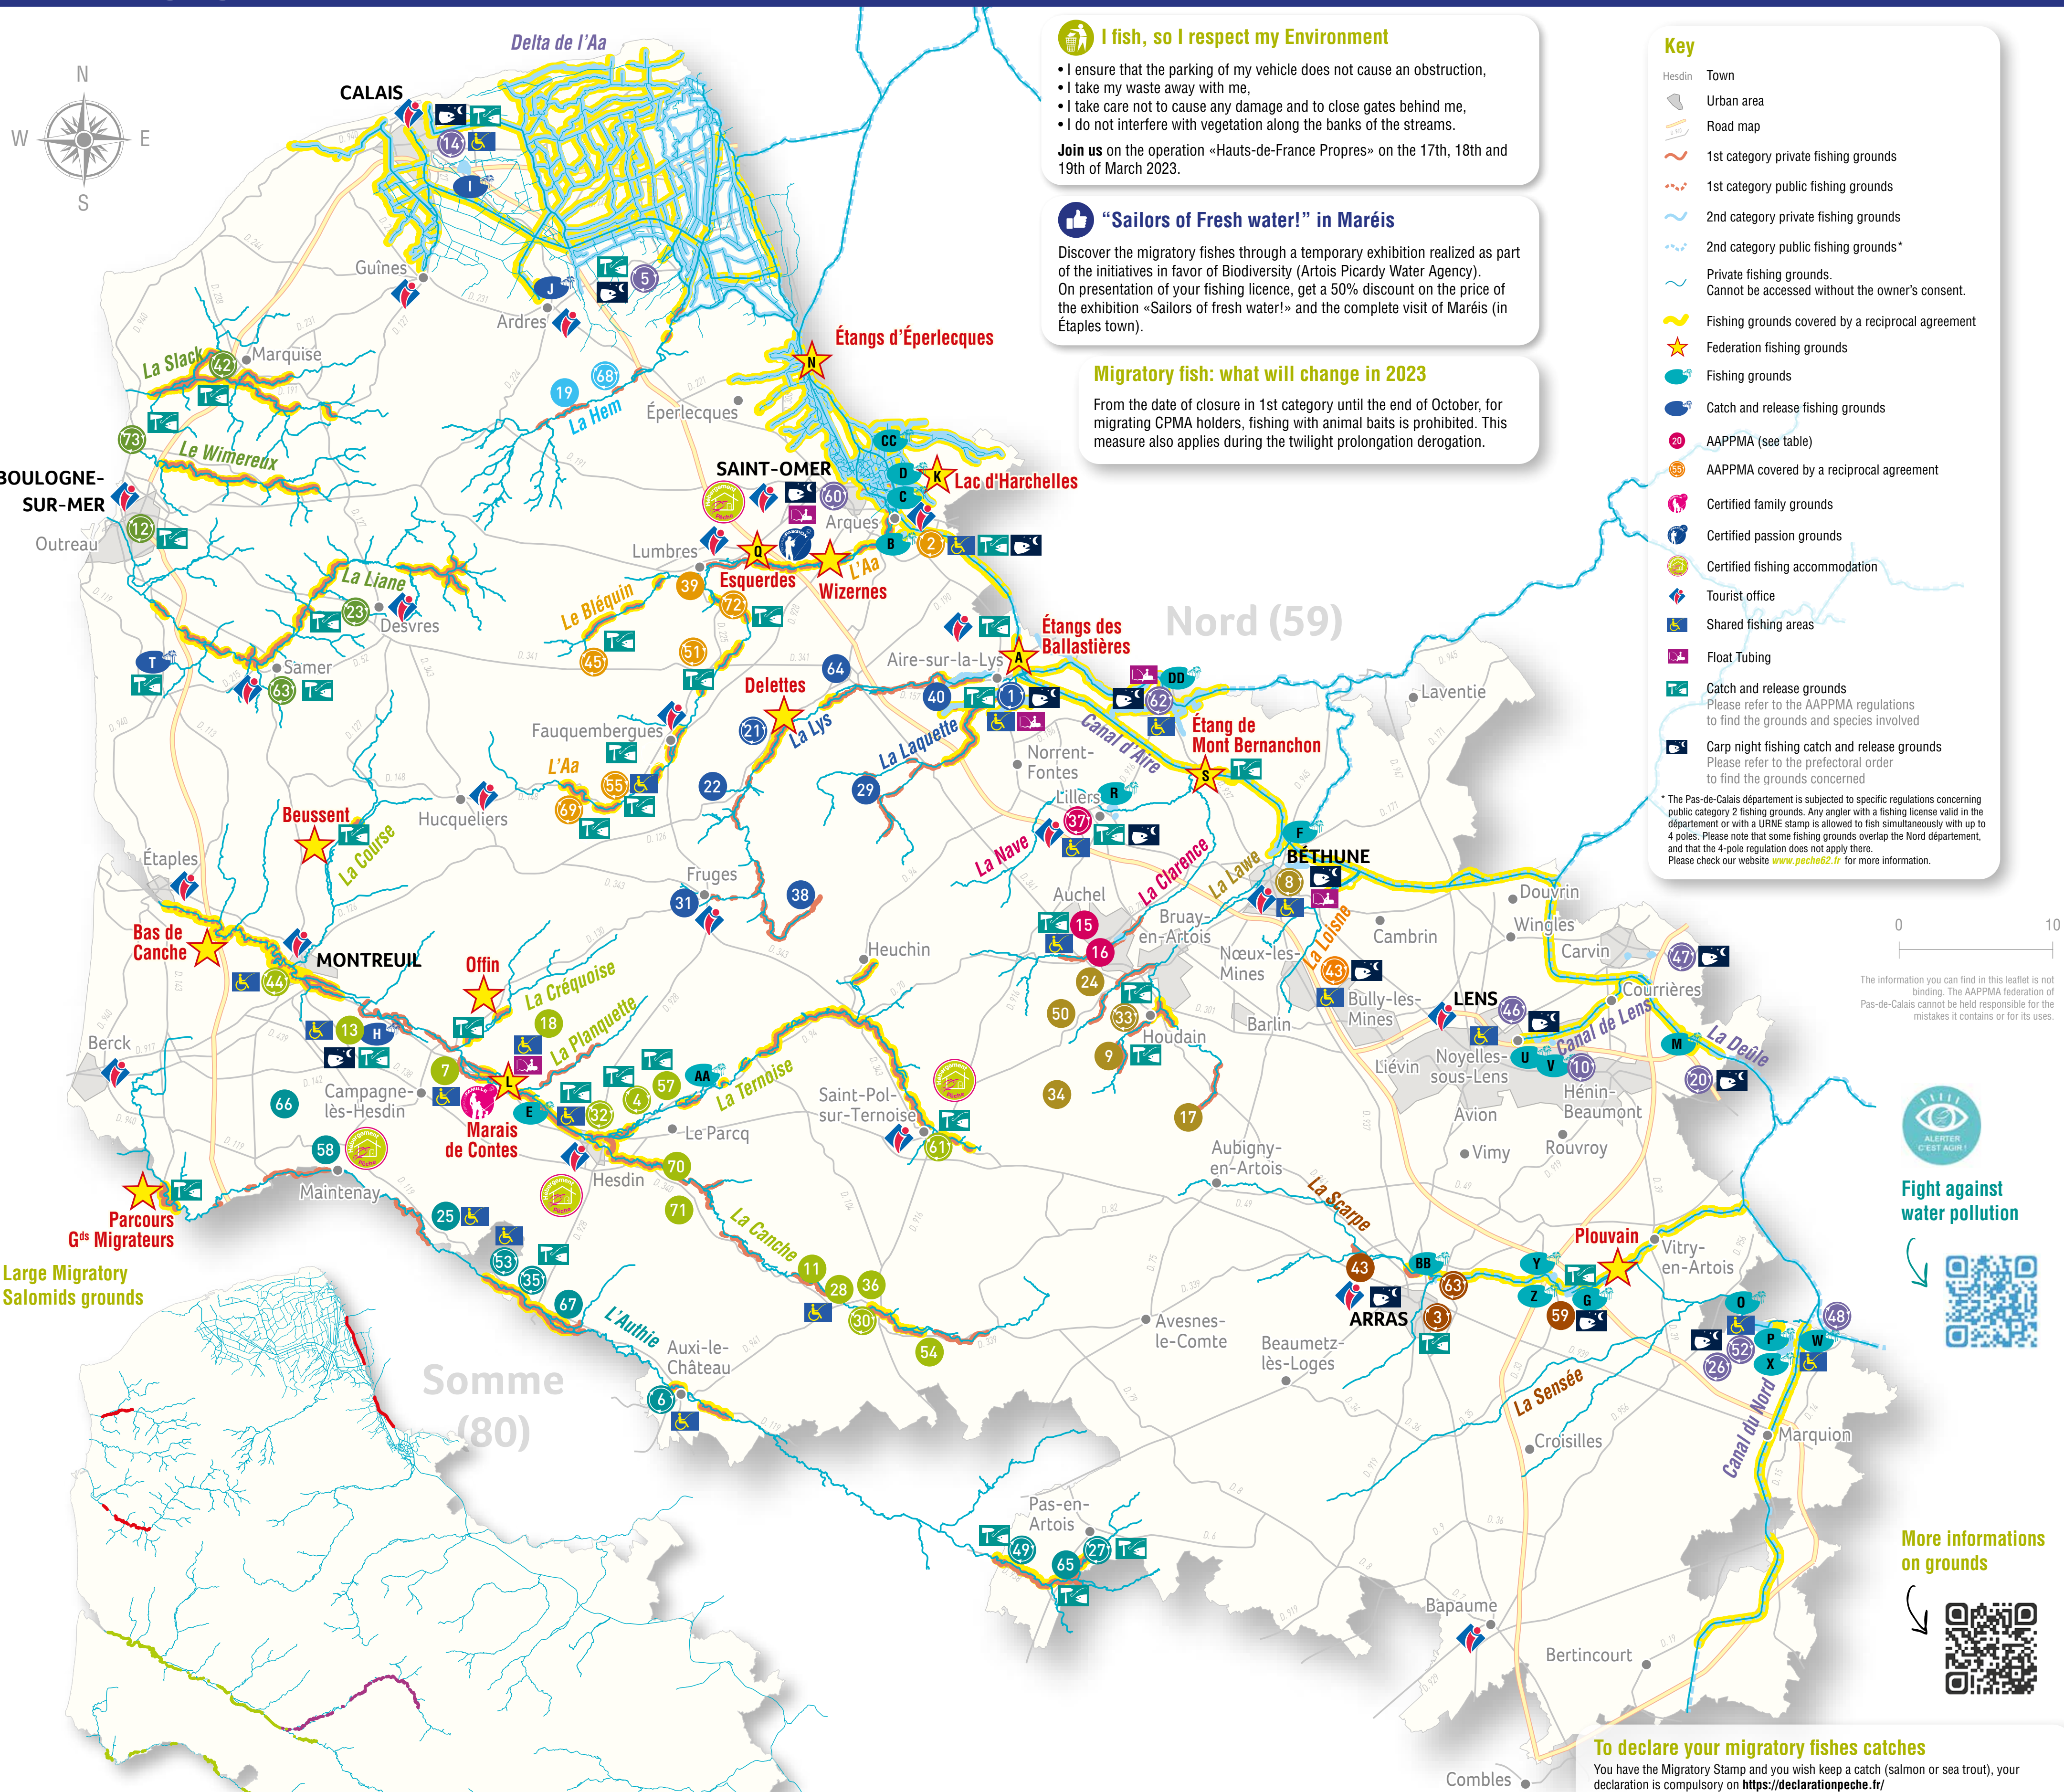

Pas-de-Calais Federation of Fishing for the Protection of the Aquatic Environment

# Fishing grounds in Pas-de-Calais

## I fish, so I respect my Environment

- I ensure that the parking of my vehicle does not cause an obstruction,
- I take my waste away with me,
- I take care not to cause any damage and to close gates behind me,
- I do not interfere with vegetation along the banks of the streams.

Join us on the operation «Hauts-de-France Propres» on the 17th, 18th and 19th of March 2023.

## “Sailors of Fresh water!” in Maréis

Discover the migratory fishes through a temporary exhibition realized as part of the initiatives in favor of Biodiversity (Artois Picardy Water Agency). On presentation of your fishing licence, get a 50% discount on the price of the exhibition «Sailors of fresh water!» and the complete visit of Maréis (in Étaples town).

## Migratory fish: what will change in 2023

From the date of closure in 1st category until the end of October, for migrating CPMA holders, fishing with animal baits is prohibited. This measure also applies during the twilight prolongation derogation.

## Key

- Hesdin Town
- Urban area
- Road map
- 1st category private fishing grounds
- 1st category public fishing grounds
- 2nd category private fishing grounds
- 2nd category public fishing grounds\*
- Private fishing grounds. Cannot be accessed without the owner's consent.
- Fishing grounds covered by a reciprocal agreement
- Federation fishing grounds
- Fishing grounds
- Catch and release fishing grounds
- AAPPMA (see table)
- AAPPMA covered by a reciprocal agreement
- Certified family grounds
- Certified passion grounds
- Certified fishing accommodation
- Tourist office
- Shared fishing areas
- Float Tubing
- Catch and release grounds. Please refer to the AAPPMA regulations to find the grounds and species involved
- Carp night fishing catch and release grounds. Please refer to the prefectural order to find the grounds concerned

\* The Pas-de-Calais département is subjected to specific regulations concerning public category 2 fishing grounds. Any angler with a fishing license valid in the département or with a URNE stamp is allowed to fish simultaneously with up to 4 poles. Please note that some fishing grounds overlap the Nord département, and that the 4-pole regulation does not apply there. Please check our website [www.peche62.fr](http://www.peche62.fr) for more information.

Fight against water pollution

More informations on grounds

## To declare your migratory fishes catches

You have the Migratory Stamp and you wish keep a catch (salmon or sea trout), your declaration is compulsory on <https://declarationpeche.fr/>. You caught a sea trout or a salmon that you released or not, please declare (anonymously if you want) your catch on <https://tinyurl.com/declarationpeche62>

## Possession of migratory stamp is strictly required if:

- You want to take a Sea Trout or an Atlantic Salmon (only allowed on the Canche and Authie axis to the upstream limits which are indicated in the table below cons).
- You want to fish during the twilight exemption (only allowed on the Canche and Authie axis to the upstream limits indicated in the table below cons).
- You want to fish on these rivers until the closing date of the fishing Atlantic Salmon and Sea Trout.

Beware, the practice of catch and release is mandatory on several courses.

The removal of an Atlantic Salmon (only allowed on the Canche and Authie axis to the upstream limits indicated in the table below cons), must be in compliance with the number of specimens that can be legally caught (prefectural order). Once the limit number is reached, the removal of an Atlantic Salmon is prohibited with the publication of a new prefectural order. So please regularly check up our website to know the updated number. When you take an Atlantic Salmon, you must immediately put a mark to the fish and report the capture to the CNICS\* (in accordance with the recommendations of the migratory set submitted with your migratory stamp. The Catch report for Sea Trout from the CNICS\* is not mandatory but highly recommended. Thank you to check the validity of the number of specimens that can be legally caught presented on the annual order.

\*CNICS : Centre National d'Interprétation des Captures de Salmonidés migrateurs (National Center for the Interpretation of migratory salmonids catches)

## Maison de la Pêche et de la Nature (fishing and nature centre) in Pas-de-Calais

How the fishing federation raises awareness and spreads information

If you need any extra information concerning the Pas-de-Calais FDAAPPMA and its activities, you can come and visit the Maison de la Pêche et de la Nature - located rue des Alpes in Arques - Monday to Friday from 9 a.m. to 12 a.m. and from 2 p.m. to 5 p.m. Premises closed to the public on Friday afternoon.
